VOYAGER SOPRIS LEARNING®

2018–2019 System Requirements

Voyager Sopris Learning® applications are tested and certified to operate on computers with the following recommended configurations. For the highest quality user experience, we recommend a computer system with one of the configurations listed below, a high-speed Internet connection, and sound capabilities. Please note additional recommendations for specific products.

This document covers these products:

- *LANGUAGE!® Live*
- *Velocity®*
- *Step Up to Writing®*

- *TransMath®*
- *Vmath®* and *VmathLive®*
- *Inside Algebra*

- *LETRS®*
- *REWARDS®*
- *eSolution: Fluency, Vocabulary, and Comprehension*

	Windows	Chromebook	MAC
Operating System	Windows 7+	Chrome OS	OSX 10.12+
Internet Browser	Google Chrome (Current version recommended) Microsoft Edge (Current version recommended) Internet Explorer 10.0+	Google Chrome (Current version recommended)	Safari 11.0+ Google Chrome (Current version recommended
Display Resolution	1,024 x 768+	1,366 x 768	1,024 x 768+
Cookies Enabled	Yes	Yes	Yes
JavaScript Enabled	Yes	Yes	Yes
PDF Reader	Acrobat Reader 9.0+	Native PDF Viewer	Mac PDF Reader Acrobat Reader 9.0+

*Note: For *LANGUAGE! Live*, the current version of Adobe Flash is required when using Internet Explorer. Auto play should be enabled for Chrome and Safari. (Video, audio, other animated images).

Chromebooks:
Voyager Sopris Learning applications are supported on Chromebooks. However, due to the wide variety of hardware choices, the user experience may vary. Generic minimum recommendations are:
- Display: 11.6 inch
- RAM: 4GB
- Storage: 32GB

Customers should test their Chromebooks with all Voyager Sopris Learning products they intend to use. A list of specific Chromebook models used by Voyager Sopris Learning for testing is available upon request.

iPad applications are available from the iTunes App Store for:
- eBooks—Voyager Sopris Learning
- *LANGUAGE! Live* Recorder
