

More is possible

SHARE KIT

JOIN THE MOVEMENT

Sometimes sharing or implementing something new at a school is intimidating and downright difficult.

We get it.

We developed this kit so that you can easily share with your school or district leaders. We have included a sample e-mail you can cut and paste, some data about *LANGUAGE!® Live*, videos, and other tools you can use to help spread the word.

Help your school see that more is possible.

Believe literacy is possible.

Dear XX,

I wanted to share with you information on a product I believe can instrumentally increase our school's (and the district's) overall outcomes. *LANGUAGE!® Live* is a comprehensive, blended learning solution for struggling readers in grades 5–12. It combines foundational and advanced learning skills with digital and teacher-led instruction to significantly improve reading and writing skills.

When you examine studies on what most influences school performance scores, literacy is the essential element that affects all subjects. You've seen it with our students. If they can't read or struggle to read, then every other subject is affected.

I'd like you to simply see a demo of this product. I know you are busy, and the demo won't take more than a few minutes of your time.

From what I've seen about this product and the research behind it (authored by literacy expert Louisa Moats, Ed.D.), it's possible to increase a student's overall growth so that they can catch up with their peers and be successful in their core classes. While I know it may sound too good to be true, here are a few success stories of other districts and personal student accounts.

Results

On average, when *LANGUAGE! Live* is implemented, students gain almost two years' growth in one year. [Take a tour](#) or [see results](#) or share the following images.

LANGUAGE! Live REQUEST A DEMO LEARN MORE

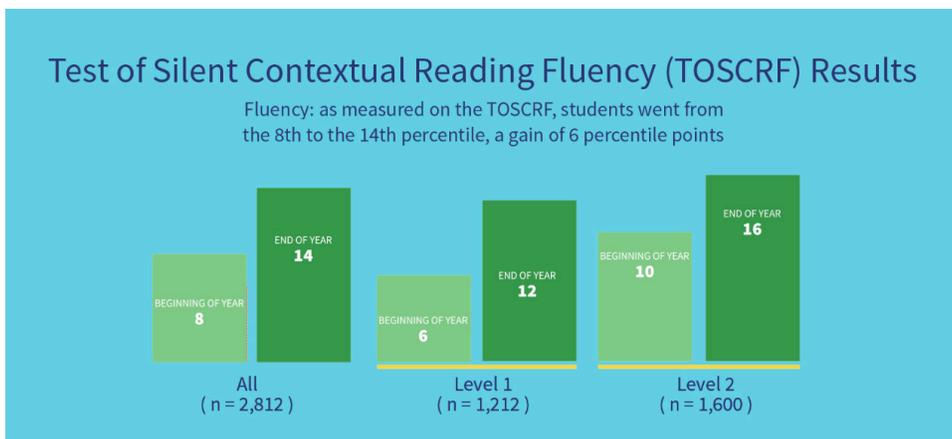

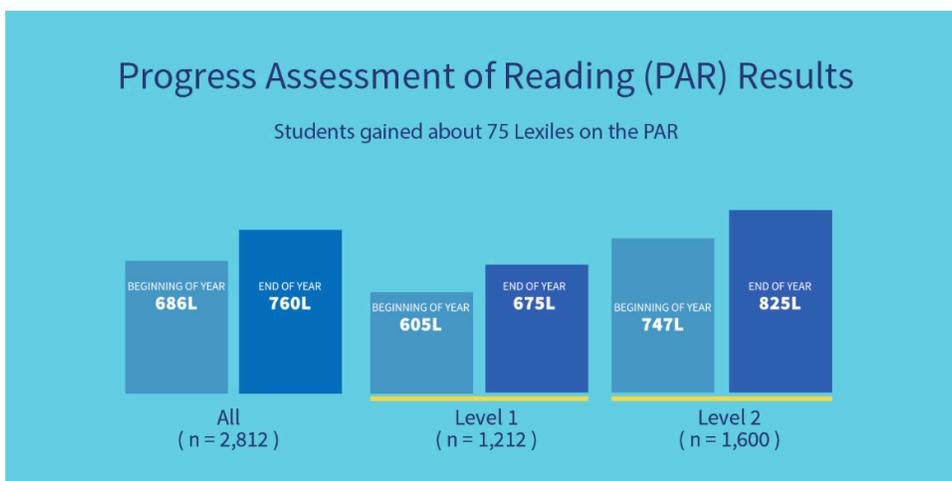

Almost 2 years' growth in 1 year!

With *LANGUAGE! Live*, a good implementation equals good results. For example, with a 45-minute implementation, it is common for teachers to facilitate classrooms in which students have completed 6 to 7 units in Word Training and Text Training. Research show that a well-balanced program leads to great results.

STUDENTS GAINED ALMOST 2 YEARS (1.9) in one academic year

Annual growth based on Scammacca, N. K., Fall, A., & Roberts, G. (2015). Benchmarks for expected annual academic growth for students in the bottom quartile of the normative distribution. Journal of Research on Educational Effectiveness, 8, 366-379

More Information

I'm sure you or your school leaders may have questions. [Here is a detailed brochure](#) to review and learn more about **LANGUAGE!® Live**.

When I catch up...
I feel more confident.
I work harder.
I believe... I'm possible.

LANGUAGE! Live
Grades 5-12

EFFECTIVE. FLEXIBLE. INNOVATIVE. LANGUAGE! Live is a comprehensive blended learning solution for struggling adolescents that inspires a new level of confidence and drive to help students become proficient readers.

Believe in the possibilities.

INNOVATIVE
MOTIVATING FOR EVERY STUDENT

- Peer tutor videos
- Topics adolescents want to read and explore
- Avatars and rewards
- Collaboration
- Real-time progress tracking

When they are prompted to write, it's very guided and it goes with the reading. We've been talking about the reading, we've been talking about the questions instead of just trying to get strategies from all over the place. LANGUAGE! Live has strategies for almost everything.
—Rebecca Lacey, Teacher, Zucker Middle School, Charleston, SC

READINGSCAPE
Getting students to read requires getting and keeping their interest.
ReadingScape is an online, interactive library containing literary and informational texts divided into three levels for student self-selection. The visual, audio, and interactive capabilities encourage more wide-reading opportunities.

POWER PASS
Teachers can give students a Power Pass.
Power Pass uses a high-stakes test format to help prepare students for state testing, monitor progress, and move students toward grade-level expectations. Students read independently-assigned text, answer two-part, multiple-choice questions and respond to writing prompts using text evidence.

When I support them... I celebrate their growth.
I believe I can make a difference.

I believe... literacy is possible.
